Kena Patel
UI/UX Developer

Profile

Driven by a passion for creating engaging digital experiences. With a keen eye for design and a commitment to user-centric solutions, I bring an innovative mindset to every project. My goal is to blend functionality with aesthetics. Eager to contribute my skills to a dynamic team and grow within a forward-thinking organization.

Work experience

AU-IQM Hackathon - (UI/UX Developer)
Adani University

Won in AU-IQM Hackathon as a UI/UX Developer, I have designed user-centred interfaces for both mobile and web applications.

- I have developed an UI/UX for mobile application of book trading app with proper navigation.
- Implemented future designs and scopes for the application.
- Documented the flow and design of team work for presentation.

Young India - (Event Manager)
Ahmedabad

Collected the list of school that needs skill based workshops and pitched them the idea of young India that is to provide free workshops for student.

- My pitches influenced 10+ schools.
- Young India impacted skills of many students positively.
